

Down

- 1** Use a flashlight at night to try and find us as we scurry across the sand. You may find me during the day too!
- 4** Build your own on the beach using sand and water, or find me peeking above the sand at Jockey's Ridge. I once was part of a Putt Putt course many years ago, but the shifting sands of the ridge have since swalled me up.
- 6** This handy tool is a great way to dig holes on the beach, and fill them up too! Which is what every good beach goer should do when they are done playing for the day!
- 8** A can be big and small and many people come from far and wide to ride me. If I am too dangerous, then stay away until I calm down and pay attention to warning flags lifeguards fly.

Across

- 2** You can search for me up in the beaches of Corolla and Carova roaming wild and free. I'm famous ya know!
- 3** People love to have fun with me on the beach tossing me to and fro. But you will need a partner, and a dog makes a great one!
- 5** I love to swim and frolic in the waves of the ocean, and the sound too. I'm usually with some friends and family so I never swim alone, and neither should you!
- 7** Use me for shade when sitting on the beach, and make sure I'm anchored securely in the sand so a strong breeze doesn't take me away!
- 9** We love the Outer Banks and choose to live here because the waves are fun to ride all year long.
